

KEVLAR

CYBER

BUILT FOR CYBER SUCCESS

EXECUTIVE-LED CYBERSECURITY. MISSION-FOCUSED. OUTCOME-DRIVEN.

Kevlar Cyber delivers enterprise-grade cybersecurity, compliance, and resilience solutions for organizations that cannot afford uncertainty.

We help government contractors, regulated industries, and private organizations strengthen security, achieve compliance, and build resilience—so they can focus on their mission.

OUR FOCUS AREAS

CYBERSECURITY & ZERO TRUST

Assess, design and implement modern defenses that reduce risk and protect what matters most.

COMPLIANCE & GOVERNANCE

Achieve and maintain compliance with CMMC, NIST, ISO, HIPAA, PCI and more.

MANAGED CYBERSECURITY

24/7 monitoring, threat detection and response to keep your environment secure and resilient.

CYBER RESILIENCE & INCIDENT RESPONSE

Prepare for the inevitable with incident response, forensics, tabletop exercises and recovery planning.

EXECUTIVE ADVISORY & vCISO

Strategic leadership, risk management and roadmap development tailored to your business objectives.

AI GOVERNANCE & ISO 42001

Responsible AI adoption with governance, risk management and compliance at the core.

STRATEGIC LEADERSHIP. TECHNICAL EXCELLENCE. MISSION SUCCESS.

OUR SOLUTIONS

CYBERSECURITY & ZERO TRUST

Security assessments, penetration testing, vulnerability management, Zero Trust architecture, cloud security, and Microsoft security solutions.

CYBER RESILIENCE & INCIDENT RESPONSE

Incident response planning and retainers, ransomware preparedness, tabletop exercises, BCP/DR planning, digital forensics, and post-incident analysis.

COMPLIANCE & GOVERNANCE

CMMC Level 1 & 2, NIST SP 800-171, NIST CSF, SOC 2, ISO 27001, ISO 27701, ISO 42001, HIPAA, PCI DSS, CJIS, policy development, gap assessments, and continuous compliance.

EXECUTIVE ADVISORY & vCISO

Virtual CISO services, risk management, security strategy, board reporting, roadmaps, vendor risk management, and cybersecurity program maturity.

MANAGED CYBERSECURITY

24/7 monitoring, threat detection, managed EDR, Microsoft 365 security, identity protection, vulnerability management, and secure backup.

AI GOVERNANCE & ISO 42001

AI risk assessments, AI governance frameworks, ISO 42001 readiness, AI policy development, and secure AI implementation.
